Creating Your BlackBoard Profile

Click on your name, in the upper right corner of the screen. A menu will appear. At the top of the pane on the left is the icon towards which I have pointed a big arrowhead below. Click on it to “Edit My BlackBoard Profile.”

Agree to the terms of service

Blackboard Social End User Terms of Service

When I used Firefox, at this point I got three blinking little boxes and the whole process stopped. When I used Chrome all was well.

Primary Email Address

Your Blackboard profile uses your email address to connect your Blackboard institution accounts and your Blackboard services to a single profile. If you have used one of these services before, use the same email address here.

For new profiles, we recommend using an email address that you will always have access to when you change schools or jobs. You can change this email address at any time by editing your Blackboard profile.

My Primary Email Address

When you submit your Blackboard profile with this email address, we will send you a verification email.
Provide your email address and submit. An email verification will be sent to that address, and you will need to click on a link in that email to complete your BB profile.

You can upload a photo of yourself and some information about yourself. These then become visible in various places in BlackBoard, including in your posts in the Discussion Board.
